BUILT IN METER BOXES

Gbox and the Fbox

A deeper design of box permits the installation of both standard and prepayment meters without the need for any modifications to the door. Another standard feature is the use of a special fire retardant (Class II, BS 476) moulding compound in all our meter boxes.

APPLICATION

A built in meter box suitable for either gas or electricity meters, usually installed into the property at the time of construction. The common design for both services ensures a more aesthetically pleasing installation.

PRODUCTION PROCESS

Manufactured by hot compression moulding with our own design and range of tooling.

MATERIAL SPECIFICATION

Weather resistant glass reinforced fire retardant polyester moulding compound (GRP) Class II BS 476.

QUALITY STANDARD

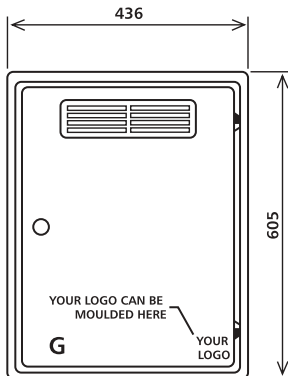

BS EN ISO 9002

NEW DESIGN FEATURES

- Registered Design No. 2085871.
- Aesthetically designed.
