## Unibox

### UNIVERSAL METER BOX (500 x 480 x 270mm H x W x D)

With over thirty years of experience in design and development, These gas meter boxes are manufactured to the quality standards synonymous with our name. Unibox® is designed for use in either ground mounted or wall mounted installations. The unique design of Unibox® offers the installer flexibility and choice in the selection of meters, regulators and fittings to achieve the most cost effective solution. Unibox® will accept all standard front facing index, inclined index and the latest designs of prepayment meters. Designed with the standard meter bracket Unibox® offers ease of assembly with quick and safe connections in addition to a choice of inlet and outlet positions. Detailed assembly drawings of meter installations are available on request.
